

UK China Graduate

Work Experience Programme

Atkins Highway Services Internships x 1 – Job Description

Based:	Cambridge	Salary:	£19,500 - £24,000 (pro rata, depending on experience)
Start date:	March 2008	Duration:	50 weeks

Atkins, is the UK's leading engineering consultancy. Atkins plans, designs and enables the delivery of complex capital programmes for clients in the public and private sectors across the world. We are also one of the world's leading providers of highway and Highway Services. Our Highway Services division employs over 3,000 staff and contributes to approximately 20% of the company's turnover.

Highway Services resolves transport problems through the design and application of innovative technology and engineering solutions. Whatever the demand we can deliver the appropriate solutions. Familiar with policy, sensitive to environmental concerns, we seek total answers; more efficient highways, better traffic flow, improved road safety, enhanced public transport and well informed travellers.

This is an exciting opportunity for a graduate engineer to join Atkins Highway Services. Based in our Cambridge office, the successful candidate will join one of our design teams delivering to our local authority client. You will receive the necessary training and support to stretch your existing skills and enable you to develop innovative traffic and road safety solutions.

Responsibilities

The successful candidate will join one of our design teams and will be responsible for;

- The design, co-ordination and management of schemes from conception to completion.
- The production of status reports for your work area for discussion at progress meetings with clients.
- Undertaking the estimating, cost reporting and forecasting for traffic and road safety projects and elements of larger schemes

Requirements

We are looking for strong communicators with good interpersonal skills and team builders who are eager to learn. Specifically you should have:

- A passion for Engineering and a demonstrated interest in a career in this area, demonstrated through academic studies and/or previous work experience.
- Be studying for or have attained a Masters degree in Engineering.
- Experience in the delivery of highways or traffic engineering
- Strong report writing and presentation skills
- Fluent reading, written and spoken English - TOEFL minimum score of 580, IELTS 6.5
- Good interpersonal skills - including the ability to seek advice and guidance where necessary and to work independently and as part of a team.
- Demonstrated ability to take ownership of tasks and project ensuring delivery – ability to solve complex problems and identify new solutions.
- Knowledge of Microsoft Word, Excel, and PowerPoint.

To apply for this opportunity, please contact the China Scholarship Council
