

JP Morgan – 1 Equity Derivatives Internship

Based:	London	Salary:	£35,000 pro rata depending on length of internship
Start date:	March 2008	Duration:	26 weeks

JPMorgan is the investment banking business of JPMorgan Chase, a leading global financial services firm with assets of \$1.4 trillion and operations in more than 50 countries. We serve the interests of clients who have complex financial needs, whether they are major corporations, governments, private firms, financial institutions, non-profit organisations or even private individuals

Equity Derivatives Trading Team Overview

The Equity Derivatives trading team is responsible for pricing, positioning and risk management regarding equity derivatives. The product scope varies from the simplest option to more complex products like variance swaps, digitals or options on volatility.

Responsibilities

- Development work for new derivative products
- Working with all areas of the business; inc. Trading, Sales, Middle Office, IT, Quantitative Research, Strategy, other support teams
- Product research, Market and competitor analysis
- Writing and delivering training material, for internal and external use
- Preparing marketing material
- Extensive interaction with other global regions
- Other business development initiatives

Requirements

- A passion for investment banking and a demonstrated interest in a career in this area, shown through academic studies and/or previous work experience.
- Be studying for or have attained a Masters degree in Finance/Maths/Engineering/Science
- Fluent reading, written and spoken English – TOEFL minimum score of 600, IELTS – 7.
- Good interpersonal skills - including ability to seek advice and guidance where necessary and to work independently and as part of a team.
- Knowledge of Microsoft Word, Excel, and PowerPoint.
- Creativity. Pro-active nature. Ability to work independently.
- Some knowledge of financial markets or derivatives is an advantage and an enthusiasm to find out more
